Spring and Summer Medicine

now before the public Spring and Summer are the seasons when

Jaundice Complaints

are most prevalent The symptoms of these complaints are

Drowsiness, Dimness of Sight, &c.

It has proved itself a most astonishing and effectual remedy for that worst of all maladies,

The Piles,

because it cleanses and enables the stomach to discharge into the bowels, and causes a free circulation and regulates the whole system, and thereby prevents

Costiveness

In cases of Costiveness, either of recent or long standing, it has proved itself effectual after all other remedies have failed

Scrofula, or King's Evil,

and all other eruptions of the skin are caused by the impure state of the blood and to have pure blood a medicine should be occasionally taken.—The Panacea is wonderful in its effects for purifying and

Cleansing the Blood,

and is therefore a preventive for all eruptions of the skin and will eradicate

Humors

of long standing, and in fact it is requisite for the promotion of

Sound Health

from the most exhausted constitutions

BRITISH PERIODICALS.

REPUBLICATIONS OF

The London Quarterly Review
The Edinburgh Review,
The Foreign Quarterly Review,
The Westminster Review,
AND
Blackwood's Edinburgh Magazine

THE above Periodicals are reprinted in New York, immediately on their arrival by the British steamers, in a beautiful clear type on fine white paper, and are faithful copies of the originals —BLACKWOOD'S MAGAZINE being an exact fac simile of the Edinburgh edition

The wide-spread fame of these splendid Periodicals renders it needless to say much in their praise As literary organs, they stand far in advance of any works of a similar stamp now published while the political complexion of each is marked by a dignity candor and forbearance not often found in works of a party character

They embrace the views of the three great parties in England—Whig, Tory, and Radical—'Blackwood' and the "London Quarterly" are Tory, the Edinburgh Review" Whig and the "Westminster," Radical The 'Foreign Quarterly" is purely literary, being devoted principally to criticisms on foreign Continental Works

The prices of the RE PRINTS are less than one third of those of the foreign copies and while they are equally well got up, they afford all that advantage to the American over the English reader

MORE PROOFS!

"The cry is still, they come!"

EVERY mail brings tidings of their success — From East to the remotest West—from Canada on the North to Mexico and the West Indies on the South—all are unanimous in their praise — Of a medicine so universally known and esteemed as

WRIGHT'S INDIAN VEGETABLE PILLS,

it is hardly necessary to speak in detail At no period in its history has the reputation of that medicine stood higher, and we may say that no reputation is likely to be more enduring Adapted to all constitutions to every form of disease and to all climates Wright's Indian Vegetable Pills are above every other medicine, fitted for the use of man under whatever circumstances he may be placed At sea or on land, at home or abroad, in summer's heat and winter's cold with a common regard to the conditions of health, and with Wright's Indian Vegetable Pills at hand there is no excuse for being sick unless the constitution be utterly irreclaimable

As our object is to state where the genuine medicine can be obtained rather than to give it an extended notice, which our limits forbid, we shall merely subjoin one or two of the numerous testimonials that have just come to hand Hundreds of the same kind might be added, but we are sure the public will save us the trouble of arranging them

SPECIAL NOTICE,

In consequence of the passage of an act by the recent Legislature of Maine, unjustly requiring the publication of the recipes of all proprietary medicines, after the first of January next the public would do well to PURCHASE IMMEDIATELY AN AMPLE SUPPLY of the above celebrated medicine, as it MAY NOT BE LONG that the opportunity will be afforded in the State of Maine — The sinister intentions of designing men will thus for a time be defeated The medicine, if kept dry will be good for years That act we pronounce most *unjust,* because it requires a valuable secret to be put into the hands of one's *professional enemies* This no one will do and thus the poor man will be compelled to pay for the visits of a doctor instead of doctoring himself, as he now does at a small expense

BANGOR May 16 1846

I have been very severely afflicted with a distressing cough attended with asthma For thirty years especially during the winter season for some eight or ten years past I have expended a large amount of money in endeavoring to regain my health and have tried nearly all the preparations of the day with little or no benefit During the fore part of last winter I was much worse than usual—very much worn down with my cough, and emaciated so that I was unable to attend to business I felt discouraged and began to conclude with my friends that my case was a hopeless one Whilst in this situation a friend called to see me and advised me to send and purchase a bottle of Hunter's Pulmonary Balsam and a box of the Indian Dyspepsia Pills prepared by CURTIS & CO of this city saying he had made use of them in a case very similar and had been cured I had little or no confidence in any patent medicines having tried many and found no relief and objected sending for them for some time At the earnest solicitation of several who declared they had found relief from them I purchased a bottle of the Balsam and a box of the Pills Very soon after I commenced using them, was relieved from the distress at my lungs, my cough became loose and I raised easy Soon after my cough began to disappear and in less than a month it was perfectly well My lungs now appear perfectly well, and have been so for months I believe the Balsam and Pills SAVED MY LIFE I have made use of it since for my children in cases of colds and coughs, and it has universally given them immediate relief and cured the cough I do most cheerfully recommend it to the public, believing it the *best article in the world* for all lung complaints, asthma &c JOHN THOMPSON

SATURDAY, OCTOBER. 3, 1846.

Whig Success.

A Whig Representative was chosen in New Portland on Monday last

☞ The Bath Telegraph states that it is certain now that two Whig Senators are elected in Lincoln county. This makes the Senate stand six Whigs and seven Locos

The Locos in Distress about a dissolution of the Union. A Grand Humbug Attempted.

Let every man shut his mouth and swallow hard and keep swallowing! The Saco 'Democrat' under the eye of Senator Fairfield, and probably in this case he had a thumb and two fingers doles out more than a column upon the subject of the dissolution of the Union. It has more than night mare fits and fears, at every word uttered in the Free States, against the encroachments of the slave power, and shutting it eyes and stopping its ears it bellows out "a dissolution of the Union!"

It can see the army and the navy of the Union engaged in an unrighteous war for the acquisition of territory in which to erect new slave States. It can see Texas admitted to the Union and the political slave power thus acquired, crushing the welfare of the North by destroying the protective policy which has been a leading and vital policy of the Union since its first establishment. It can see this inconsistent and changeful party marching, with iron tread, to the fulfilment of all it purposes, in cold and selfish disregard of the honor, rights, and welfare of the Free States, and making us in the eye of the world, a nation committed to the extension and perpetuity of slavery, and utter no word of protest—no lisp of complaint! Its party leaders get office and spoils, and it is content!

It finds at length, that its own supineness is not shared by the great masses of its own party, and that the Whigs and the Abolitionists speak out freely and boldly in heart warm and manly protests against these encroachments, and to stop the rushing current of honest indignation at those men at the North who have bowed themselves devotedly down to the work and worship of this slave iniquity, this Saco 'Democrat' dashes down its handful of mud to dam it up by crying out at the top of its feeble voice, "dissolving the Union"

Dissolving the Union? That is a work which requires little labor in the Free States, as it will, naturally enough, grow out of the course of the slave power in the Union, by administering the government wholly in reference to the slave interest. But a dissolution by these means the Saco Democrat does not seem to have dreamed of. It sets up a creature of the imagination—a mere man of straw, and by shouting 'dissolution of the Union' it hopes to silence all outspoken complaints at the North on account of the aggressions of the slaveocracy. This bugbear wont answer the purpose with earnest and true men. The Free States, while they should ask for nothing that is not right, must also resolve to submit in patience to nothing that is wrong

The people begin to understand this and to act upon it, often against the dictation of party leaders and the usages of party discipline—New Hampshire has given a specimen of this, Maine, too, has uttered her newly awakened feeling, and thus warning after warning will be sounded in the ears of our rulers until they shall be compelled by the potent voice of the people, to pause in their career and amend their course, or by the onward surges of public sentiment, be swept away from places of honor and of trust

Improvement of the Western Waters.

A meeting of Western men was held in New York on Monday evening, for the purpose of giving utterance to opinions and wishes in relation to the improvement of the Western Waters, and especially of the Great Lakes. The meeting was numerously attended by men from various parts of the West. The meeting resulted in the adoption of resolutions, recommending that a convention be holden on the 17th of June next, at Chicago, to be composed of delegates from all the States bordering on the Western Lakes and Rivers, and from the Atlantic States interested in their commerce. The object of the convention is to collect and condense information on the subject of the rapidly increasing commerce of the West, to be presented to Congress, and to effect such a concert of action among the friends of the great interest, as shall operate beneficially upon public opinion

☞ The New York Express states that the government have found their Treasury Notes selling at so low a rate of discount at N Orleans that they have been compelled to place specie funds at that point. To do this they have made drafts on the deposite banks here, which have promptly done what the government have found themselves unable to do, viz place par funds at a distant point

As long as the government balances last, they can, through our banks send these funds in any direction, and no longer. These deposits are gradually lessening, and in a very short time they will cease altogether. Government must then be dependent upon their army warrants, or Treasury Notes. This description of paper is now selling at a discount in New Orleans of 4 and 5 per cent, and from present appearances, will continue at that rate

It will be utterly impossible for the Sub Treasurer to place par funds at New Orleans

☞ The Boston Traveller states that a case is to be tried at Newburyport, at the present term of the court, of a violent assault by a young married man on a friend and neighbor, for kissing his wife, in presence of his mother as he was about leaving home for a long journey.—The jealous fool nursed his wrath two years and then inflicted the flogging. The case occurred in *Newbury*, not Newburyport mind you, and probably he was a sort of interloper in that town, for the people about there generally have a good share of common sense.

☞ "Old Colony Republican" is the title of a large whig paper, the first number of which has just reached us. It is published at Taunton Mass by Hack, King and Howard. The number before us appears well in every respect

☞ The loco leaders seem to understand the importance [illegible] particularly in reference to the Land office, of securing the next Legislature. As one evidence of this, we learn that four men living in the Charleston district, who were employed last August to work a hundred days for the State have been called out of the woods and are at home to vote on Monday next. They feel nicely, as they say, to be at home and yet under pay. This is probably a case in which the Bangor Democrat will say the ends justifies the means. We trust such proceedings as this will stir up the Whigs in that district to do their best and thus defeat the hopes and plans of party leaders

☞ At a recent loco State convention in Massachusetts the following resolve was passed

Resolved, That the law of the last session of the Legislature, in relation to hawkers and pedlers, is grossly illiberal & arbitrary in its restraint and exactions upon the lawful pursuits of a large class of the citizens of this commonwealth, and deserves the united condemnation of the democratic party

We do not know how the "democratic party" in Maine feel upon this subject, but in the last Legislature where they had a decided majority in both branches a similar law was passed. But 'democracy' in Massachusetts is probably a very different thing from what it is in Maine!

Glories of the Administration.

When any one claims for Polk's Administration the settlement of the Oregon question, show them this, from that subservient of the South, John Wentworth, of the Chicago Democrat

In the extreme eagerness of the south to keep peace with Great Britain, there is now no doubt but that we have given her the free navigation of the Columbia river. Thus have we lost that for which we have been contending for a half century. As the British construe the late treaty, it is not so good as we might have made twenty five years ago

☞ We would call the attention of our readers to the notice in our columns, of the re-opening of the Warehouses of Messrs E & J Moulton. A card of this firm, in another column, explains the reasons of their late suspension.—Their friends will be glad to know that they are again in shape for conducting their business to a successful issue. Their usual enterprise will soon be manifested as they have a large and valuable stock which they are determined speedily to turn into cash, in order to make room for new importations.

☞ William Beach, of Troy, New York, has invented and patented a mode of using cast iron plates for covering roofs. They are about one foot square, and are made to fit one into another, so as to render the roof water tight by applying white lead to the joints. It can be afforded at sixteen cents the square foot, and comes at about half the cost of copper. They weigh three and a half pounds a square foot.—Slate costs eight cents per square foot

☞ Mr Prentice, says the New York Courier and Enquirer mentions the late case of a woman who was struck dumb by the firing of a cannon. The very sudden cessation of Mr Polk's blustering talk about the Oregon business exhibited perhaps a still more remarkable phenomenon—a man struck dumb by the *apprehension* of the firing of cannon

☞ Col Bugbee has laid upon our table a thick pamphlet containing "The Life and adventures of the Reformed Inebriate D. G Robinson M D." It is a book full of the horrors of drunkenness and hurls not a few anathemas at the machinery of City Police, Courts &c

☞ The Cherokee Advertiser states that the wife of Rev Mr Smith, of the Moravian Board of Missions, died a short time since at one of the stations near Beattie's Prairie in this Nation. Mr Smith and lady were both from Salem, N C

☞ The House of Representatives now stands forty seven Whigs to forty six Locos.—The elections on Monday next, will probably determine the character of the House to be Whig

☞ There are two things says the Maine Farmer which we would enjoin upon every man in Maine who has land enough to bear up a tree, viz 1st Set out more fruit trees. 2d—Take good care of what are already out

The boughs of the common cedar, cut fine, and mixed with the food of horses, are said to be an effectual remedy for the troublesome and very prevalent disease called 'cough

☞ The annual Fair of the American Institute will open next week in New York, and will be well worth a visit, even from Maine

☞ The Governor of New Hampshire has appointed Thursday, the 26th day of November next, as a day of Thanksgiving and Praise

☞ Potatoes now bring about forty cents a bushel in our market, for shipment

☞ The State of Massachusetts is about to establish a manual labor farm school, for the reformation of juvenile offenders

☞ A young man recently lost eight hundred dollars at a gambling house in New York

☞ The Governor of South Carolina has appointed the 5th of November as a day of Humiliation, Thanksgiving and Prayer

☞ The young men of New York are about organizing a State Temperance Society

☞ The Governor of Georgia, has appointed Thursday, the 5th day of November, as a day of Solemn Thanksgiving

☞ We have a friendly word for our young friend who sent us an article entitled "Autumn" How shall we convey it to him?

Mental pleasures never cloy, unlike those of the body, they are increased by repetition, approved of by reflection, and strengthened by enjoyment

Representatives.

The annual election, Sept 14, for the choice of 151 Representatives, resulted as follows—Whigs [illegible] Locos 43, No choice 76. Second trial, Sept 21, 46 single districts, electing 17 Representatives,

Whigs 9, Locos 2, No choice 6

Third trial, Sept, 28, in 6 single towns and second trial in Portland and Bangor,

Whigs 6, Locos 1, No choice 3

Total 47 Whigs, 46 Locos, and 58 vacant districts, all of which have another trial on Monday, October 5th

Later from the Army.

The "Courier" has a letter from New Orleans, dated Sept 24, which says

"The report that Gen. Ampudia had arrived at Monterey is confirmed. Gen Taylor arrived at Seralvo, and pushed on to Monterey. He expected to arrive before that place, and open his fire upon it on the morning of the 25th of this month, Sept. Gen Taylor's force was about 7000. That of Ampudia is estimated by reports of spies at from 5000 to 8000

Col. Farney.

The New Orleans Delta says there is not a word of truth in the story which appeared in some of the papers in the city, that this officer had been put under arrest by order of General Taylor, had been ordered back to San Antonio by him, and that his baggage train or a part of it, in its return, had been cut off by the Mexicans. This contradiction is made upon the authority of letters received from San Antonio of a late date, which do not allude to his arrest and do speak of his movements

Destructive Fire in Philadelphia.

Tuesday Evening, Sept, 26

This forenoon a row of small brick buildings on George st West of Schuylkill Sixth, were destroyed by fire. The buildings were twenty two in number, each of which was inhabited by several poor families—at least eighty in all—who were mostly left shelterless and destitute. The loss altogether is about $15,000

A bad fall.

A slater, whose name we understand to be Coyell, fell from the roof of a three story building on Water Street, on Tuesday, and was badly bruised, but no bones were broken and he is in a fair way of recovery. It is remarkable that his partner in the slating business fell, a few years since, from a similar building on the opposite side of the street, [the one now occupied by the Age office,] and was killed.—Kennebec Journal

☞ The Flour and Corn market in New York has a strongly upward tendency. Those who have flour on hand seem afraid they shall not get enough for it, while others dread a nip like that of last year

Isaac Smith Esq.

To the Editor of the Whig & Courier

I was pleased to find, that you had taken particular notice of the death of Isaac Smith Esq, by copying into your paper from the Boston Traveller an account of the melancholy accident that caused his death, as well as a sketch of his life and character. The praise, there given was justly due. Mr Smith was considered a citizen of this place, his business, if not inclination, having made him a resident here for the last two or three years. To strangers his manners might have appeared distant and somewhat forbidding but to his friends and acquaintance he was social, familiar and kind. In his habits he was industrious, methodical and correct—in his principles scrupulous and upright. He was exact in his dealings, requiring nothing from others, which he was unwilling to render in return—following, as well as expecting the observance of the golden rule. He possessed a benevolent spirit, and was always ready to assist the needy, and to contribute his aid to every good work and purpose. He was in a particular manner, liberal in the support of the Gospel, not only seeking by words, but by means to secure its promotion—advancing its doctrines by his practice as well as precept.—During his residence in this place he has taken great interest in Sabbath Schools, and without any ostentation, has spent much of his time in forming and instructing classes in retired districts, and, while a blessing will follow these labors of love, he has now, we trust, secured a blessing for them. The inhabitants of Cherryfield ought not and will not forget his kindness and exertions in this respect, while his praiseworthy example should induce others to go and do "likewise." In all his domestic relations he was faithful and kind; but as a *husband* he uniformly manifested a degree of tenderness and affection, which no one, who appreciates connubial attachment could witness without admiration and praise or without feeling "how good and "how pleasant it is" for those who have pledged their views to love and cherish each other to dwell together in peace and unity

If there is any one, who has reason to lament his death, it is the partner of his bosom—the wife of his youth and of his age—as dear to him in the wane of life, as in its brightest fullness. She has the christian's consolation in her bereavement, and can realize its value. He was prepared to die, and though he has left her for a season, he will rejoice as on earth, when the separation is ended, to welcome her in Heaven, to part no more. We consider the death of Mr Smith as a loss to our town as well as a *public* loss, but our loss is his gain, for

"*Blessed* are the dead, who die in the Lord"

Suicide.

We learn that John Harvey, a trader at Palmyra, hung himself in his barn, on Tuesday last, Sept 29th. He had been addicted to drinking that bane of mankind,—ardent spirits,—which so many are engaged in dealing out to their fellow men in this city, to their ruin [Mercury

News from Capt Freemont and Bents Fort.

We have received a communication by which we learn that Mr Toplin arrived at Independence Sept 11th, direct from the Sacramento River, where he left Capt Freemont on the 3d of April last. Capt Freemont had received no news of the war, but was intending to remain where he was until he received further orders from the United States, which were daily expected. Our readers will remember that he was ordered out of the country, but did not intend to obey it until he was ready.

Mr Toplin was at Bent's Fort on the 18th August. Gen Kearney and all of his troops had been gone some days. He met a portion of Col Price's regiment at Pawnee Fork, and Col Price himself at Pearl Spring, with the remainder of his command. They were all in good health and getting on well. Expectations of the Administrations.

A letter in the Intelligencer says

"The following anecdote, among other things shows what were the views and expectations of the government as the present war. A field officer of the army, now with Gen Taylor, told me, when passing through here, that he was in Washington last spring when the first news arrived of hostilities, and Congress adopted prompt measures for the war, he was conversing with a prominent member of Congress, the chairman of an important committee, which brought him in constant and confidential communication with the Government, of which he was an ardent political supporter, and this officer was stating his views as to the most effectual plan for prosecuting the war against Mexico; and, after he got through doing so, that if this plan was followed he thought the war might be brought to a close by January next. 'January!' said the chairman in reply, and with much astonishment, 'why, sir, if we cannot close this war by July, the sooner we buy off Mexico the better.'—'Well, sir, said the officer, 'if such are your expectations, the sooner you begin to get the money ready to buy her off the better

Use of a nose.

A good story is told of Mozart, at the time he was a pupil of Hayden. The latter challenged his pupil to compose a piece of music which he could not play at sight. Mozart accepted the banter, and a supper and champaigne were to be the forfeit. Everything being arranged between the composers, Mozart took his pen and a sheet of paper, and in five minutes dashed off a piece of music, and, much to the surprise of Hayden, handed it to him saying, 'There is a piece of music, sir, which you cannot play, and I can—you are to give the first trial

Hayden smiled contemptuously at the visionary presumption of his pupil, and placing the notes before him, struck the keys of the instrument. Surprised at its simplicity, he dashed away until he reached the middle of the piece, when, stopping all at once, he exclaimed, 'How's this Mozart? how's this? Here my hands are stretched out to both ends of the piano, and yet there's a middle key to be touched!' Nobody can play such music, not even the composer himself

Mozart smiled at the half-excited indignation and perplexity of the great master, and taking the seat he had quitted, struck the instrument with an air of self-assurance that Hayden began to consider himself duped. Running through the simple passages he came to that part which his teacher had pronounced impossible to be played. Mozart, as anybody is aware, was favored, or at least, endowed, with an extremely long nose, which in modern dialect, "stuck out about a foot." Reaching the difficult passage, he stretched out both hands to the extreme ends of the piano, and leaning forward, bobbed his nose against the middle key "which nobody could play."

Hayden burst into an immoderate fit of laughter, and after acknowledging the "corn," declared that nature had endowed Mozart with a capacity for music which he had never before discovered.—[Musical Gazette

"In a world where two persons may be soon divided to meet no more, says an elegant author, "it is an awful thing to make a last bitter word. How many have had reason to regret having spoken harshly to their friends, when it was too late to remedy the matter! How guarded ought men to be in their conversation. From the Albany Argus.

The Prison Convict.

BY ALBERT TRACY

A rhyme to weave! a rhyme for one
By the world forgotten long,
A noble rhyme of the son of Crime,
And his prison kept so strong
And weave it well that all may list,
And troll it loud and high
With manacle link and gyve to clink
In a glorious symphony!

The convict wight with his crown all cropt,
And his garb so quaint to see,
A merry life in his fastness,
With his fellows all hath he
Burglar and thief and he whose hand
Hath a fadeless stain of blood,
Oh, these they are so fain to be
Of his chosen brotherhood

From dawn till dusk, the livelong day,
How cheerily up doth come
The busy maul of the trade he plies,
So speechless all and dumb
Or bench, or loom, or the sounding forge
He may choose whichever he deign,
Nor lack of time and practice good
And a skill in his craft to gain

A skill! ay the keepers do but heed,
And yon gaudy sentinel,
Lest—seized of a mood—his sledge or blade
He handled for once too well
Day in day out—and he strives but more
With the hum of the outer crowd,
The roll of wheels, and the laugh that come,
On his toil so clear and loud

Or say if he chance to faint sometimes,
Or to do his task seem loth,
The lash, the lash, 'tis a wondrous thing,
And quickeneth well his sloth
And blood though it stream, and his lip shed foam,
His masters still are kind,
So soothing 'tis, the bullet they give,
In his rage to champ and grind

Who telleth of night? and his silent cell,
And the shapes that haunt him there?
He may howl, may be sad, and fright them forth,
Nor yet need the keeper care;
Nor himself, nor the guard need fear for him,
'Tis time they well should know,
Those links less strong, those grates less firm,
He had rent them long ago

Week after week—but merriest yet;
A stilly Sabbath fall,
Are the tales to list from the chapel priest,
Of mercy and love for all
He heareth them out, as he need must choose,
But he warms with inward glee—
Who ever heard of mercy yet,
Or love for such as he!

The squalid child, with hunger [illegible],
Who e'er for him had heed?
He got his all as he best might do,
Or lied or stole at need
The lady, perchance, that gave him pence,
'Be honest, now,' quoth she;
How he [illegible] in his haunt, that stranger,
[illegible] word,
And [illegible] what it taught [illegible]
[illegible] school for [illegible] to learn of [illegible],
(The gaol [illegible] his after [illegible]
[illegible] wrought [illegible] yet with [illegible] all [illegible] thus
He bore from its walls away!
[illegible]
No thousand men should quell—
He did but look to get hither at last,
But he earned his guerdon well

And the iron gate, and the wall of stone,
And scourge plied well and oft,
With the bands that callous his limbs of bone,
Shall they render his heart more soft?
They are merry, then—ay, blithest of all,
The tales of that holden sage,
And he gaineth not his cell but he spits, good luck!
For mirth, on his Bible page

When Avarice causeth to rob the first,
When virtue of Scots is less,
When any but come in his earlier time,
With half such a [illegible]—
Then less shall they need of prison or priest
Or the judge to read his ban,
And the wight shall taste that knew not hope
Nor faith in his fellow man

Year after year, from the world away
The toil, and the whipman's thong;
Oh, a merry time for the son of Crime
In his prison keep so strong!
Troll high the burden! and dungeon deep
And cell give forth reply,
With manacle link and gyve to clink
In a glorious symphony!

'I've always taught my children to say *yes sir*, and *no sir*,' remarked Mr Fidget. 'There is nothing like manners in children.—'Here, Tommy,' he continued, 'would you like to go and live with this gentleman?'

'No

'No *what?*'

'No *sir ee*!'

Oldridge's Balm of Columbia.

This article was introduced in New York about twenty years since and from its superior virtues in reproducing hair, when it had fallen out, keeping the head free from dandruff a most loathsome article on a gentleman's coat-collar, and giving a softness and beautiful lustre unknown before to the hair, has induced many persons to set up and advertise many other articles for the same purpose, none of which stands the test of trial,—professing to be oils of various kinds, all of which are positively injurious to the human hair. Let none be deceived—no other article will make the hair grow rapidly and of a good quality but the Balm of Columbia, and no other article purporting to be the Balm of Columbia is genuine, without the name of Comstock & Co on the outside wrapper. Many in Boston have been deceived and obtained a counterfeit article for the true and genuine Balm of Columbia. Remember to look for the name of Comstock & Co. on the wrapper, before you purchase and get none but the genuine. Don't be deceived with the assurance that any without the name is made in the same way and is just as good, all such pretensions are false, and known to be so by the counterfeiters

Valuable Water-Power and Land for Sale.

THE subscriber offers for sale 200 acres of good land, situated in the east part of Sebec, on each side of Sebec River, comprising the Falls known as "Half-mile Ripe." A substantial Dam has just been built at these falls, and by running a canal a short distance a fall of 20 feet is obtained, affording one of the best water privileges in the State of Maine. The Sebec River affords sufficient water through the dryest seasons for a large amount of Machinery, is not obstructed by ice, and there is no danger of damage by freshet. The location, being 36 miles from Bangor, and 12 from Katahdin Iron Works, is a favorable one for the manufacture of Cotton, Wool, Iron, &c. Also, a Saw-Mill and Shingle-Machine might do a good business.

The particulars of this *Mighty Equestrian Troupe* so fortunate and famous, are impossible to describe in an advertisement; a correct detail may be found in the immense descriptive Bills, posted in the principal Hotels and elsewhere. STOVES.

GENTLEMEN wishing to obtain the best FURNACE in the United States, will please call and examine my extensive assortment, which cannot be equalled elsewhere. The important improvements in these Furnaces over other kinds in producing the largest amount of pure, wholesome air, has resulted in their being very extensively introduced in this and other cities, of sizes adapted to all classes of buildings.

Personal attention given to the erection of Furnaces in Dwellings, Churches, &c. References as to their perfect operation given to any extent that may be required, from gentlemen of the first respectability in the city and vicinity.

Also, the largest and best assortment of

COOKING RANGES

THE AMERICAN AIR-TIGHT COOKING-STOVE.

PIERCE'S PATENT, four sizes. All purchasers of Stoves, be sure and examine this invention. The subscriber has the utmost confidence in its superior merits, believing it to be, without exception, the most perfect, convenient and economical Stove ever offered to the public. It is the opinion of all who have examined and used it, that it will supersede all other COOKING STOVES in use. It has more actual improvements and necessary conveniences about it, than can well be described here; a few among the many are such as having the top of the oven fire brick, which gives it all the advantages of a brick oven: the bread will rise and bake light, as the steam is absorbed into the brick; this improvement is of great importance. The facilities for roasting in front, with a tin oven, are unsurpassed: the hearth, or summer arrangement for broiling, boiling, &c. &c., with hard coal, charcoal, or wood, is an admirable arrangement. The grate clears itself, discharging the ashes into the ash-pit; the flues are so arranged as not to fill up with ashes; the Stove has a large oven and six boilers.

Just received GRATES and STOVES for Coal, new and elegant patterns—and AIR-TIGHT STOVES of every description.

TO THE PUBLIC.

E. & J. MOULTON & CO. would inform those who are indebted to them, by note or account, that in consequence of having been hardly dealt with by those from whom they have, as they think, deserved better treatment, they are under the necessity of urging them to make every proper exertion to pay them what may be their due, or such part thereof as they may be able to: as we have now to depend upon collections to meet some engagements of a particular honorary character—and to pay laborers whom we employ, and furnish supplies to carry on lumbering operations that cannot, in justice to ourselves or creditors, be abandoned until they are matured and the effects appropriated towards the liquidation of our indebtedness. In justice to ourselves, we would say to our creditors, that our present position ought to have been avoided; that a negotiation which we commenced with two of our Boston creditors whom we induced to visit this place for the purpose of completing, if it had been acted upon in good faith by them, the evils resulting from impaired credit would have been avoided. Those individuals may find some palliating circumstances for the course of conduct pursued, as they sought advice of those whose pecuniary interest is promoted by the misfortunes of the trading community, and the information they received was not the truth;—yet they cannot say, without faltering, that they have acted a manly part, nor can they say in conscience that they have done by us as they would be done by under like circumstances.

The result of their course will prevent our doing justice to ourselves or the rest of our creditors. As our credit and means, to a great extent, are placed beyond our control, having to depend for the present upon collections to meet honorary paper and carry on lumbering operations in addition.—But of this they may rest assured, all of our debts will be paid in full to the utmost farthing and probably by the month of June next, unless we may make some exceptions in favor of such as treat or have treated us badly. Such persons perhaps ought not to complain if we pay them in Jewish coin, by making them wait until they repent. We would say in conclusion to all of those to whom we may be indebted, be assured that you will all get your pay in full, as we have full faith that after making an allowance of twenty thousand dollars for bad and doubtful debts and other contingent losses, that we can pay our debts and have twenty thousand dollars or more of good property left to divide amongst ourselves. Any property that we have under our control that our creditors may prefer taking for their debts in lieu of waiting for their money they can have on fair terms. The most of our creditors we have already secured partially. We take this public method of making this statement for the benefit of those who may be interested as we have not time to write to each one, individually.

CONSUMPTION CURED!

BUCHAN'S
HUNGARIAN BALSAM
OF LIFE.

THE
GREAT ENGLISH REMEDY
For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Colds and Pulmonary diseases, still stands unrivalled and unsurpassed as the most [illegible] curative of these formidable complaints, now known to the civilized world.

Three years of trial in the United States, during which time it has been distributed [illegible], has only served to establish its pre-eminent merit in all parts of the country as the great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease, and the best and surest curative of all the slight forms of colds, cough and inflammation, that can possibly be [illegible].

SPITTING OF BLOOD. This frightful symptom [illegible] proves [illegible] the use of Buchan's Hungarian Balsam [illegible] the ruptured membrane [illegible] the lungs [illegible].

REMEMBER THIS. [illegible] of Blood always arises from [illegible] disease, and if not checked at [illegible] later [illegible] death. A person [illegible] will raise blood again unless a proper curative is immediately employed.

PAIN IN THE SIDE. This distressing symptom of Consumption [illegible] inflammation of the Lungs or the [illegible] the Pleura or from Bronchial [illegible]. In either case it is a [illegible] of disease. It prevents full [illegible] of the system [illegible] by the Great English Remedy discovered by Dr Buchan which is entirely vegetable in its ingredients and perfectly harmless in all cases of [illegible].

LIVER COMPLAINT. In cases of Consumption the Liver is always more or less affected, and both the Spleen [illegible]. On dissecting [illegible] Tubercles are often found in all the organs particularly upon the Liver [illegible] become fatty [illegible] swolled. The effect of the Hungarian Balsam [illegible] diseases of the Liver especially [illegible]. *Simple disease of the Liver, unattended by Consumption is speedily cured by* [illegible].

WINTER COUGH. The hard dry hacking winter cough which afflicts all people and is a [illegible] a low state of health is happily affected by the *Hungarian Balsam.*

It warms, moistens and stimulates the whole breathing [illegible] removes all morbid mucus [illegible] improves [illegible] of the Liver, Spleen and other [illegible] and its parts [illegible].

BRONCHITIS. [illegible] Difficulty of Breathing, [illegible] Cough [illegible] expectoration [illegible] this symptom caused by [illegible] directly and rapidly cured by the use of the admirable remedy invented by Dr Buchan.

This [illegible] painful wearing and injurious complaint and always has a powerful tendency to inflame and soften the Lungs and thereby to induce the worst form of Pulmonary disease. Be warned in time ye afflicted and employ this valuable remedy.

TUBERCLES ON THE LUNGS. The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs. Incredible as this is generally esteemed we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect in all cases where there is no natural organic defect. In fact so confident is the American Agent of its power to cure the worst form of this disease that he prefers (as he has frequently stated) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent. He boldly declares that it will cure Tuberculous disease and confidently [illegible] in the *worst of cases.*

EXPECTORATION. Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs. The Cough which is so distressing is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage, it will continue to irritate the membrane and provoke a cough. Coughing is an attempt to throw off the matter and expectoration gives great relief. Inability to expectorate in the latter stages of Consumption is the cause of death.

The Hungarian Balsam is a *great Expectorant*—It dissolves the morbid and diseased matter in the air passage, changes it from a thick glutinous substance, to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient. There is no better medicine in the world if its expectorant quality alone be considered.

SPASMODIC ASTHMA. Simple or Spasmodic Asthma has no better remedy than the Hungarian Balsam. This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy as readily as any other form of Pectoral disease.

CONSUMPTION! Consumption has been graphically described as a *Shrinking of one's self.* The Hungarian Balsam by its cleansing, warming, softening and animating power, produces, not shrinking but *expansion!*

Before its delightful influence all chills, fevers, night sweats, costiveness, blueness of the nails, a hot flushed skin, an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious *morning sun!* This is no delusion, but demonstrable fact, sustained by incontestible proof from all parts of the country.

BE WISE TO DAY! Delay in any case of Consumptive tendency is emphatically Death under all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above described be advised in time.

Sold in large bottles at only one dollar per bottle.

Exeter, Me. Sept 30 1845

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs for two years past, and many bottles to my knowledge have been used by my patients, all with beneficial results. In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.

All published statements of cures performed by this medicine are in every respect TRUE.

BEWARE OF COUNTERFEITS AND IMITATIONS. The unparalleled and astonishing efficacy of Dr Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended, curing many cases after the skill of the best physicians was unavailing, has effected a large and increasing demand for it. This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures of similar name and appearance, for the genuine Balsam.

Dr. S. O. Richardson's
CONCENTRATED
Sherry Wine Bitters.

THE Proprietor of this Medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the *human* system.

It cannot be denied by those who have become acquainted with the *singular* virtues of these Bitters, that they possess a pre-eminence over all others now in use, for the diseases which they profess to cure.

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youthful adult and declining life.

The extensive sympathies which subsist between these and every other part of the living body are the foundation of nervous diseases of all kinds. Irregular Appetite, Langour, Drowsiness Wandering Pains, Headache Lowness of Spirits &c.

And these in their turn give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath Jaundice, Piles Fevers, Inflammatory Humors, Coughs and a host of diseases which embitter life and poison all sources of enjoyment.

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease. When used in appropriate quantity, in cases of slight derangement of the Stomache and Bowels caused by *costiveness* or a slight bilious difficulty and the like, whose nature needs assistance to prevent more serious consequences, they will be scarcely felt.

On the contrary, in obstinate cases they frequently operate more powerfully causing two or three evacuations daily, until the circulating fluid becomes purified. This accomplished they act on the system in connection with our food each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor.

DR. UPHAM'S
Vegetable Internal Remedy
FOR THE PILES!
☞ A Cure for Life Secured. ☜

For the cure of Piles, Inflammation of the Liver and Spleen Inflammation, Soreness and Ulceration of the Stomach Bowels Kidneys and Bladder Inflammatory and Mercurial Rheumatism Impurity of Blood Weakness and Inflammation of the Spine and for the relief of Married Ladies

THE VEGETABLE PILE ELECTUARY. Invented by Dr A Upham, a distinguished physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark this—it is an INTERNAL REMEDY—not an external application and will cure any case of Piles either Bleeding or Blind Internal or External and probably the only thing that will. There is no mistake about it. It is a positive cure speedy and permanent. It is also a convenient medicine to take and improves the general health in a remarkable manner.

Each box contains twelve doses at 8 1-3 cts per dose. It is very mild in its operation and may be taken in cases of the most acute inflammation without danger. All external applications are in the highest degree disagreeable, inconvenient, and offensive, and from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source and removing the cause, renders the cure *certain and permanent.*

INFLAMMATORY DISEASES—Although the Electuary was originally prepared for the cure of Piles yet it has proved itself to be a medicine far superior to all others in all diseases of an *inflammatory character* with a determination of blood to any particular part or organ. In Inflammation and *Congestion of the Liver* and Spleen, Inflammation Soreness and Ulceration of the Stomach Bowels, Kidneys, and Bladder, *in Inflammatory* and Mercurial Rheumatism, it is the best Medicine ever discovered.

IMPURITIES OF THE BLOOD—For all Impurities of the blood arising from the imprudent use of mercury, or other causes, for all Diseases of the Skin and Scrofulous Affections, in all cases where *the blood is* powerfully determined to the Head, producing dizziness and distress, Dr Upham's Electuary is entirely unrivaled.

TO MARRIED LADIES—Married Ladies are almost invariably subject to that painful and injurious disease the PILES, with consequent inflammation of the stomach bowels and spine, weakness of the back flow of blood to the head, &c. The Electuary is perfectly safe for Pregnant Ladies and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, *without pain or irritation,* but will ensure an easy time, a safe delivery and a sound constitution in the offspring.

CURE FOR THE PILES GUARANTIED—The Electuary contains no mineral medicine, no Aloes Colocynth, Gamboge, or other powerful and irritating Purgative. No fear of taking cold while under its influence, no change in diet is necessary. If taken according to the directions, *A cure for Life is Guarantied.*

DEAFNESS CAN BE CURED!

COOPER'S ETHEREAL OIL—A prompt and lasting remedy for DEAFNESS also for pains and discharge of matter from the Ears.

Hundreds of cures in cases deemed utterly hopeless have firmly established its superiority over every former Medical discovery.

This valuable Acoustic Medicine is a compound of four different Oils one of which the active and principal ingredient is obtained from the bark of a certain species of Walnut, a new and effectual agent in the cure of deafness.

Persons who had been deaf for 10 15 and even 20 years have been permanently cured by using this oil. In fact so numerous and so emphatic have been the testimonials in its favor that the inventor claims for it the distinction of an infallible Remedy, in all cases, when the Ear is perfect in its formation.

For further particulars and evidence of its great value, see printed sheets in the hands of Agents.
